

COSPAK

Innovative packaging solutions – from concept to reality®

cospak plastics

Cospak Plastics, a division of the Cospak group of companies, is a 100% Australian owned private company that operates in a state-of-the-art facility located in Minto NSW. Cospak Plastics manufactures both extrusion and injection-blown plastic containers sourced from a variety of resins including HDPE, PP, LDPE, PETG, KRESIN and PVC.

Established in the year 2000, Cospak Plastics are specialists in the design and production of custom and proprietary

plastic bottles, jars and containers. Cospak Plastics is able to provide custom tooling, tailoring the product to your unique concept design or specification. Cospak Plastics also offers relatively low minimum production run quantities and a quick response time to your enquiries.

Cospak Plastics has a broad line of stock bottles ranging in size from 20ml to 25 litres. Our design team is committed to developing cutting-edge plastic packaging, containers and bottles that combine functionality and

aesthetics to showcase your specific product. Our production area also features a clean room style production environment to satisfy stringent food and pharmaceutical packaging manufacturing requirements.

Cospak Plastics is AS/NZS ISO 9001:2000 accredited and employs modern machinery and techniques to consistently produce high quality plastic products. Our association with Cospak Pty Ltd also allows us to supply a vast range of closure options to complement our high quality plastic products.

*Dimensions detailed are indicative only - we suggest obtaining a sample before use.
