SCIENTIFIC PLASTICS

What we offer

Manufacturing specialized high quality qPCR/PCR consumables for the life science and diagnostic markets, we are the original manufacturer of the Rotor-Gene consumables!

- Designed predominately for and compatible with Corbett/ Qiagen Rotor-Gene qPCR and robotic instruments
- 3 Snap unique hinge tubes are also ideal for robotic liquid handling systems and block qPCR/PCR instruments
- 25-year experience
- Free from human DNA, DNase, RNase and PCR inhibitors

Distributed by
Pacific Laboratory Products

The 3 Snap hinge

3 SNAP – Snap up, snap closed, snap safe!

Our unique range of 3 SNAP tubes can be used in all thermal cyclers, qPCR instruments and/or robotic liquid handling systems due to the innovative snap-up design.

This innovative design enables contamination-free use of samples due to the 90° angle when opening the lid, allowing error-free manual and automated pipetting whilst reducing contamination risks.

Sapphire 1.5mL Micro-Tubes

- 3 SNAP design allows for convenient sample transfer with all manual, automated, & robotic pipetting systems
- For use with all centrifuges
- Contamination free – Free from human DNA, DNase, RNase and PCR inhibitors
- Virgin Resin – Only virgin polypropylene used
- Graduations 0.1, 0.5, 1.0, 1.5 mL
- 3 Snap Flat Cap & Matte finish on lip for easier labeling

Sapphire 0.2mL PCR Tubes

- 3 SNAP 0.2mL tube for Rotor-Gene instruments is the gold standard
- Can be used with any 0.2mL block thermal cyclers/qPCR instrument
- Contamination free - Free from human DNA, DNase, RNase and PCR inhibitors
- Virgin Resin – Only virgin polypropylene used
- Available in 8-strip format
- Available with Flat or Dome Caps

Sapphire 0.1 mL Tubes and Strip Caps

- For use with Corbett & Qiagen Rotor-Gene instruments
- Contamination free – Free from human DNA, DNase, RNase and PCR inhibitors
- Virgin Resin – Only virgin polypropylene used
- Optically clear tubes with matte finish on caps for labeling

Sapphire Rotor Disc 72 and Rotor Disc 100

- For use with Corbett & Qiagen Rotor-Gene instruments
- Contamination free – Free from human DNA, DNase, RNase and PCR inhibitors
- Individually packaged
- Virgin Resin – Only virgin polypropylene used
- Available in 72-well and 100-well discs
- Requires heat seal film

Ordering Information

| Part Number | Product Description | Pack Size |
|------------------|--|----------------------|
| 981103-1-0-T-SSP | 0.1ml Strip Tubes | 250 Caps + 250 Tubes |
| 981110-1-0-SSP | 0.2ml Strip Tubes | 1000 |
| 981105-1-0-SSP | PCR tube 0.2ml with hinged flat cap | Pack of 1000 |
| 981313-30-4-SSP | 100 Places Rotor Disc | 30 |
| 981303-24-4-SSP | 72 Places Rotor Disc | 24 |
| 981601-1-0-SSP | Disc Sealing Film | 60 |
| 981510-1-0-SSP | PCR 96 well, Semi-Skirted, Low profile | Pack of 10 |
